

# Challenge

## Media Queries

Using media queries, create an HTML and a SCSS file that will:

1. Render a German flag on screens  $\leq 600\text{px}$
2. Render a Belgian flag on screens  $\leq 900\text{px}$
3. Render an Irish flag on screens  $> 901\text{px}$
4. Your HTML file should only have 3 div elements (one div for each stripe of the flag)
5. The divs will change color depending on screen size
